INDEX TO VOLUME XXXI, 1919.

PAGE

Abrasives for Specific Uses 519
Abuse and Use of Solder 229
Achievements of Naval Engineering in This War (World), by William L. Cathcart, Lieut. Commander, U. S. N. R. F. 1
Admiral Griffin Receives Honorary Degree 714
Aircraft Design and Application, Some Developments in During the War 740
Akimoff, N. W. Dynamics of Gear Drive 46
Akimoff, N. W. Remarks on the Problem of Impact 849
Alignment, Shaft, Optical Method, (Report of Realignment of Inboard Propeller Shafts, U. S. S. *Mississippi*), by William Norris, Capt., U. S. N. 56
Alloy Steels, Flakes in 522
American Bureau of Shipping and Lloyds. Parts of Vessel to which application of Electric Welding has been considered and approved by 899
Application of Electrical Energy to the Melting of Metals 679
Association Notes 343, 551, 774, 959
Associations, Societies and Commissions Promulgating Specifications for Engineering Materials, by K. D. Williams 590
Aviation Engine, The King-Bugatti 285
Baird, George W., Rear Admiral, U. S. N., Ret., Navy Estimates of the Past 577
Balancing Machines, by F. G. Hechler 405
Baltimore and Some Early Years in the Engineer Corps, U. S. N., by Fred G. McKean, Chief Engineer, U. S. N., Ret. 420
Bean, Carlos, Commander, U. S. Navy. U. S. S. *Eagle* Boats 818
Boats, *Eagle*, U. S. S., by Comdr. Carlos Bean, U. S. N. 818
Boilers, Marine, Standardization of 530
Boilers, Water Tube, Testing 697
Book Reviews 338, 550, 773
Briey-Longwy Iron Ore Basin, French 168
British Naval Construction During the War 476
British Submarine Boat Building During the War 653
British Submarine Boats, Heavy Oil Engines for 661
Cables, Electric, Current-Carrying Capacity, U. S. Navy, by Lt. Comdr. A. M. Charlton, U. S. N. 794
Capacity of Electric Cables, U. S. Navy. Current-Carrying Capacity, by Lt. Comdr. A. M. Charlton, U. S. N. 794
Cargo Ships, with Parallel Middle Body, Propulsion of 263
Cargo Vessels, Speed, Dimensions and Form of 494
Castings, Die, and Their Application to the War Programme 508
Cathcart, William L., Lieut. Commander, U. S. N. R. F. Achievements of Naval Engineering in This War (World) 1

Causes of Corrosion or Erosion of Propellers, Investigations into the 536
Causes of Impaired Turbine Economy 221
Chalker, J. H., Capt. of Engineers, U. S. C. G., Electric Welding Placed on a Scientific Basis 53
Charlton, A. M., Lt. Comdr., U. S. Navy, Current-Carrying Capacity of Electric Cables, U. S. Navy 794
Clothel Refrigerating Machine, Two-Ton, Test of, by M. C. Stuart 624
Coal, Pulverized, Use of 671
Combination Internal-Combustion and Steam Engine of High Efficiency 686
Commissions, Societies and Associations for Promulgating Specifications for Engineering Materials, by K. D. Williams 580
Composition and Properties of Steels 241
Condenser Performance, Measurement of 942
Construction, Naval, British, During the War 476
Construction of Ships, Improvements in the 171
Construction of Ships' Lines, The 177
Conversion of Energy into Useful Work, Engines for, by J. O. Fisher, Commander, U. S. N 139
Cooler, Oil, "Dex" 227
Cooling Liquids and Cutting Lubricants, Memorandum on and on Skin Diseases Produced by Lubricants 256
Cooper, Theodore, Obituary 957
Corrosion or Erosion of Propellers, Investigations into the Causes of 536
Curaca, Repairs to the 684
Current-Carrying Capacity of Electric Cables, U. S. Navy, by Lt. Comdr. A. M. Charlton, U. S. N 794
Cutting Lubricants and Cooling Liquids, Memorandum on, and on Skin Diseases Produced by Lubricants 256
DeBaufre, Wm. L. Williams Refrigerating Machine 454
Description and Official Trials of U. S. S. *New Mexico,* by S. M. Robinson, Commander, U. S. N., and Henderson B. Gregory 345
Description and Trials of U. S. S. *Ramapo.* By Henderson B. Gregory 878
Destroyer, Evolution of 900
Destroyer, German, "*S*" Type, Submerged, Inspecting a 334
Developments in Aircraft Design and Application During the War 740
Development of Geared Turbines for the Propulsion of Ships 922
"Dex" Oil Cooler 227
Die Castings and Their Application to the War Programme 508
Diesel Engines, Submarine, Notes on Operation of, by Frederick C. Sherman, Lieut. Commander, U. S. N 615
Diesel Engines, Tosi 184

Diesel Engines, Two-Stroke Cycle, Scavenging in ... 708
Difficulties of Welding Steel by the Oxy-Acetylene Process ... 331
Dimensions, Speed and Form of Cargo Vessels ... 494
Direct-Connected Turbine for the Propulsion of Ships, Passing of. By C. W. Dyson, Rear Admiral, U. S. N. ... 555
Diseases, Skin, Produced by Lubricants, Memorandum on and on Cutting Lubricants and Cooling Liquids ... 256
Doors, Watertight, in Merchant Ships ... 943
Dynamics of Gear Drive, by N. W. Akimoff ... 46
Dyson, C. W., Rear Admiral, U. S. N., Passing of the Direct-Connected Turbine for the Propulsion of Ships ... 555
Eagle Boats, U. S. S., by Comdr. Carlos Bean, U. S. N ... 818
Early Years in the Engineer Corps, U. S. N., by Fred G. McKean, Chief Engineer, U. S. N., Ret. ... 420
Economy, Turbine, Impaired, Causes of ... 221
Edlich Flow-Indicating Valve ... 329
Effect of Water Injection on Gasoline Engines ... 689
Electric Drive on Merchant Ships ... 541
Electric Heated Industrial Furnaces ... 232
Electric Propelling Machinery for the Battleship *Tennessee* ... 251
Electric Welding Placed on a Scientific Basis, by J. H. Chalker, Capt. of Engineers, U. S. C. G. ... 53
Electrical Energy, Application of to the Melting of Metals ... 679
Electrically Welded Steam Lines ... 333
Energy, Conversion into Useful Work, Engines for, by J. O. Fisher, Commander, U. S. N. ... 139
Engine, Aviation, The King-Bugatti ... 285
Engine, Internal Combustion, Lubrication and Lubricants ... 182
Engine, Marine Oil, New Type of ... 247
Engineer Corps, U. S. N., Some Early Days in, by Fred G. McKean, Chief Engineer, U. S. N., Ret. ... 420
Engineering, Importance of to the Navy ... 708
Engineering Materials, Specifications for, Societies, Associations and Commissions Promulgating, by K. D. Williams ... 580
Engineering, Naval, Achievements of in This War (World), by William L. Cathcart, Lieut. Comdr., U. S. N. R. F. ... 1
Engines, Diesel, Submarine, Notes on Operation of, by Frederick C. Sherman, Lieut. Commander, U. S. N. ... 615
Engines for Conversion of Energy Into Useful Work, by J. O. Fisher, Commander, U. S. N. ... 139
Engines, German Submarine, by Lt. Comdr. H. T. Smith, U. S. N. ... 775
Engines, Heavy Oil, for British Submarine Boats ... 661
Engines, Internal Combustion, Marine, Two Versus Four Cycle ... 273
Engines, Tosi, Diesel ... 184
Erosion or Corrosion of Propellers, Investigations into the Causes of ... 536

Estimates of the Past, Navy, by George W. Baird, Rear Admiral, U. S. N., Ret. 577
Evans, J. S., Commander, U. S. N., Test of Main Circulating Pump of U. S. S. *New Mexico* 438
Evaporators, an Improved Method of Operating, by M. C. Stuart 63
Evolution of the Destroyer 900
Examination of Materials by X Rays 719
Fisher, J. O., Commander, U. S. N., Engines for Conversion of Energy Into Useful Work 139
Flakes in Alloy Steels 522
Flow-Indicating Valve, Edlich 329
Form, Dimensions and Speed of Cargo Vessels 494
Four Versus Two Cycle Internal Combustion Marine Engines 273
French Briey-Longwy Iron Ore Basin 168
Fuel Oil 715
Fullerphone, The 531
Furnaces, Industrial, Electric Heated 232
Gasoline Engines, Effect of Water Injection on 689
Gear Drive, Dynamics of, by N. W. Akimoff 46
Geared Turbines for the Propulsion of Ships, Development of 922
Geared Turbines, Lubricating Systems for 739
Gears, Reduction, Terry 506
German Coastal Submarine Mine Layers 947
German Destroyer, "*S*" Type, Submerged, Inspecting a 334
German Submarine Engines, by Lt. Comdr. H. T. Smith, U. S. N. 775
German Tonnage Position 738
Gregory, Henderson B., Description and Official Trials of U. S. S. *New Mexico* 345
Gregory, Henderson B., Description and Trials of U. S. S. *Ramapo* 878
Griffin, R. S., Rear Admiral, U. S. N., Receives Honorary Degree 714
Heat Treatment of Low-Carbon Steel 699
Heavy Oil Engines for British Submarine Boats 661
Hechler, F. G., Balancing Machines 405
Hechler, F. G., Notes on Steam Traps 430
Hints, Workshop, Seven 254
Impact, Remarks on the Problem of. By N. W. Akimoff 849
Impaired Turbine Economy, Causes of 821
Importance of Engineering to the Navy 703
Improved Method of Operating Evaporators, by M. C. Stuart 63
Improvements in the Construction of Ships 171
Industrial Furnaces, Electric Heated 232
Inspecting a Submerged German Destroyer "*S*" Type 334
Instructions for Safe Use of Pulverized Fuel 516
Internal Combustion and Steam Engine of High Efficiency, Combination of 686
Internal Combustion Engine Lubrication and Lubricants 182

Internal Combustion Engined Warships 919
Internal Combustion Marine Engines, Two versus Four Cycle 273
Investigations into the Causes of Corrosion or Erosion of Propellers 536
Iron Ore Basin, French Briey-Longwy 168
King-Bugatti Aviation Engine, The 285
Lewis, Frank M., Torsional Vibrations of Irregular Shafts 867
Lines, Ships,' Construction of 177
Lloyds and American Bureau of Shipping, Parts of Vessel to which Application of Electric Welding has been considered and approved by 899
Low Carbon Steel, Heat Treatment of 599
Lubricants and Lubrication, by G. R. Rowland 97
Lubricants, Cutting, and Cooling Liquids, Memorandum on, and on Skin Diseases Produced by Lubricants 256
Lubricating Systems for Geared Turbines 739
Lubrication and Lubricants, by G. R. Rowland 97
Lubrication and Lubricants, Internal Combustion Engine 189
McKean, Fred G., Chief Engineer, U. S. N., Ret., Baltimore and Some Early Years in the Engineer Corps, U. S. N 420
Machinery, Propelling, Electric, for the Battleship *Tennessee* 251
Manning, Charles H 635
Manning, Charles H., Obituary 547
Marine Engines, Internal Combustion, Two versus Four Cycle 273
Marine Oil Engine, New Type of 247
Material, Examination by X Rays 719
Materials, Engineering, Specifications for, Societies, Associations and Commissions Promulgating, by K. D. Williams 580
Measurement of Condenser Performance 942
Melting of Metals, Application of Electrical Energy To 679
Memorandum on Cutting Lubricants and Cooling Liquids and on Skin Diseases Produced by Lubricants 256
Merchant Ships, Electric Drive on 541
Metallurgical Information Required by Engineers 514
Metals, Melting of, Application of Electrical Energy to 679
Mine Layers, German Coastal Submarine 947
Mississippi, U. S. S., Shaft Alignment. Report of Realignment of Inboard Propeller Shafts, Optical Method, by William Norris, Capt., U. S. N 56
Monel Metal, Some Facts about 692
Mounsey, H. M, T. B. Destroyer 340
Naval Construction (British) During the War 476
Naval Engineering, Achievements of in This War (World), by William L. Cathcart, Lieut. Commander, U. S. N. R. F 1
Navy Estimates of the Past, by George W. Baird, Rear Admiral, U. S. N., Ret 577

New Mexico, U. S. S., Description and Official Trials, by S. M. Robinson, Commander, U. S. N., and Henderson B. Gregory.... 345
New Mexico, U. S. S., Test of Main Circulating Pump of, by J. S. Evans, Commander, U. S. N.... 438
New Mexico, U. S. S., Trials, Propeller Data from, by S. M. Robinson, Commander, U. S. N.... 598
New Type of Marine Oil Engine.... 247
Norris, William, Capt., U. S. N., Optical Method of Shaft Alignment, (Report of Realignment of Inboard Propeller Shafts, U. S. S. *Mississippi*).... 56
Notes on Operation of Submarine Diesel Engines, by Frederick C. Sherman, Lieut. Commander, U. S. N.... 615
Notes on Steam Traps, by F. G. Hechler.... 430
Obituary, Charles H. Manning.... 547
Obituary, Theodore Cooper.... 957
Oil Cooler "Dex".... 227
Oil Engine, Marine, New Type of.... 247
Oil Engines, Heavy, for British Submarine Boats.... 661
Oil, Fuel.... 715
Oil Fuel Installation in Passenger Steamships.... 939
One Thousand Dollars to be paid for a Single Word.... 691
Operation of Submarine Diesel Engines, Notes on, by Frederick C. Sherman, Lieut. Commander, U. S. N.... 615
Optical Method of Shaft Alignment (Report on Realignment of Inboard Propeller Shafts, U. S. S. *Mississippi*), by William Norris, Capt., U. S. N.... 56
Oxy-Acetylene Process of Welding Steel, Difficulties of.... 331
Parts of Vessel to which application of Electric Welding has been considered and approved by American Bureau of Shipping and Lloyds.... 899
Passing of the Direct-Connected Turbine for the Propulsion of Ships, by C. W. Dyson, Rear Admiral, U. S. N.... 555
Personnel, Training of Enlisted, of the United States Navy for Engineering Duties.... 911
Problem Corner.... 470, 644
Progress in Turbine Ship Propulsion.... 193
Propeller Data from the U. S. S. *New Mexico's* Trials, by S. M. Robinson, Commander, U. S. N.... 598
Propellers, Corrosion or Erosion of, Investigations into the Causes of.... 536
Propelling Machinery, Electric, for the Battleship *Tennessee*.... 251
Properties and Composition of Steels.... 241
Propulsion of Cargo Ships with Parallel Middle Body.... 263
Propulsion of Ships, Development of Geared Turbines for.... 922
Propulsion of Ships, Passing of Direct-Connected Turbine for, by C. W. Dyson, Rear Admiral, U. S. N.... 555

Propulsion, Turbine Ship, Progress in..... 193
Pulverized Coal, Use of..... 671
Pulverized Fuel, Instructions for Safe Use of..... 516
Pump, Main Circulating, of U. S. S. *New Mexico*, Test of, by J. S. Evans, Commander, U. S. N..... 438
Pump, Return-Line Vacuum, Thompson..... 713
Ramapo, U. S. S., Description and Trials of, by Henderson B. Gregory..... 878
Reduction Gears, Terry..... 506
Refrigerating Machine, Clothel Two-Ton, Test of, by M. C. Stuart..... 624
Refrigerating Machine, Williams, by Wm. L. DeBaufre..... 454
Remarks on the Problem of Impact, by N. W. Akimoff..... 849
Repairs to the *Curaco*..... 684
Return-Line Vacuum Pump, Thompson..... 713
Robinson, S. M., Commander, U. S. N., Description and Official Trials of U. S. S. *New Mexico*..... 345
Robinson, S. M., Commander, U. S. N., Propeller Data from the U. S. S. *New Mexico's* Trials..... 598
Rowland, G. R., Lubrication and Lubricants..... 97
Scavenging in Two-Stroke Cycle Diesel Engines..... 708
Science and its Application to Marine Problems..... 929
Seven Workshop Hints..... 254
Shaft Alignment, Optical Method of (Report of Realignment of Inboard Propeller Shafts, U. S. S. *Mississippi*), by William Norris, Capt., U. S. N..... 58
Shafts, Irregular, Torsional Vibrations of, by Frank M. Lewis..... 857
Sherman, Frederick C., Lieut. Commander, U. S. N., Notes on Operation of Submarine Diesel Engines..... 615
Ship Propulsion, Turbine, Progress in..... 193
Ships, Cargo, with Parallel Middle Body, Propulsion of..... 203
Ships, Improvements in the Construction of..... 171
Ships' Lines, Construction of..... 177
Ships, Merchant, Electric Drive on..... 541
Skin Diseases Produced by Lubricants, Memorandum on and on Cutting Lubricants and Cooling Liquids..... 256
Smith, H. T., Lieut. Comdr., U. S. N., German Submarine Engines..... 775
Societies, Associations and Commissions Promulgating Specifications for Engineering Materials, by K. D. Williams..... 580
Solder, Its Use and Abuse..... 229
Some Facts About Monel Metal..... 692
Specifications for Engineering Materials, Societies, Associations and Commissions Promulgating, by K. D. Williams..... 580
Speed, Dimensions and Form of Cargo Vessels..... 494
Standardization of Marine Boilers..... 530
Steam and Internal Combustion Engine of High Efficiency, Combination of..... 686

Steam Lines, Electrically Welded 333
Steam Traps, Notes on, by F. G. Hechler 430
Steamships, Modern, Tonnage of 523
Steamships, Oil Fuel Installation in Passenger 939
Steel, Low-Carbon, Heat Treatment of 699
Steel, Welding of by the Oxy-Acetylene Process, Difficulties of 331
Steels, Alloy, Flakes in 522
Steels, Composition and Properties of 241
Stuart, M. C., An Improved Method of Operating Evaporators 63
Stuart, M. C., Test of Two-Ton Clothel Refrigerating Machine 624
Submarine Boat Building, British, During the War 653
Submarine Boats, British, Heavy Oil Engines for 661
Submarine Diesel Engines, Notes on Operation of, by Frederick C. Sherman, Lieut. Commander, U. S. N 615
Submarine Engines, German, by Lt. Comdr. H. T. Smith, U. S. N 775
Submarine Mine Layers, German Coastal 947
Submerged German Destroyer "*S*" Type, Inspecting a 334
Tennessee, U. S. S., Battleship, Electric Propelling Machinery for 251
Terry Reduction Gears 506
Test of Main Circulating Pump of the U. S. S. *New Mexico*, by J. S. Evans, Commander, U. S. N 438
Test of Two-Ton Clothel Refrigerating Machine, by M. C. Stuart 624
Testing Water Tube Boilers 697
Thompson Return-Line Vacuum Pump 713
Tonnage of Modern Steamships 523
Torsional Vibrations of Irregular Shafts, by Frank M. Lewis 857
Tosi Diesel Engines 184
Training of, Enlisted Personnel of the United States Navy for Engineering Duties 911
Traps, Steam, Notes on, by F. G. Hechler 430
Trials and Description of U. S. S. *New Mexico*, by S. M. Robinson, Commander, U. S. N., and Henderson B. Gregory 345
Trials and Description of U. S. S. *Ramapo*, by Henderson B. Gregory 878
Turbine, Direct-Connected, Passing of, for the Propulsion of Ships, by C. W. Dyson, Rear Admiral, U. S. N 555
Turbine Economy, Impaired, Causes of 221
Turbines, Geared, Lubricating Systems for 739
Turbine Ship Propulsion, Progress in 193
Two-Stroke Cycle Diesel Engines, Scavenging in 708
Two Versus Four Cycle Internal Combustion Marine Engines 273
Use and Abuse of Solder 229
Use of Pulverized Coal 671
Vacuum Pump, Thompson Return-Line 713
Valve, Flow-Indicating, Edlich 329
Vibrations, Torsional, of Irregular Shafts, by Frank M. Lewis 857

Water Injection, Effect of on Gasoline Engines..... 689
Watertight Doors in Merchant Ships..... 943
Water Tube Boilers, Testing..... 697
Watt, James, Centenary..... 531
Welded (Electrically) Steam Lines..... 333
Welding, Electric. Parts of Vessels to which application of, has been considered and approved by American Bureau of Shipping and Lloyds..... 899
Welding, Electric, Placed on a Scientific Basis, by J. H. Chalker, Capt. of Engineers, U. S. C. G..... 53
Welding of Steel by the Oxy-Acetylene Process, Difficulties of..... 331
Williams, K. D., Societies, Associations and Commissions Promulgating Specifications for Engineering Materials..... 580
Williams, Refrigerating Machine, by Wm. L. DeBaufre..... 454
Work, Conversion of Energy into Useful, Engines for, by J. O. Fisher, Commander, U. S. N..... 139
Workshop Hints, Seven..... 254
X Rays, Examination of Material by..... 719

Water Injection, Effect of on Gasoline Engines 660
Watertight Doors in Merchant Ships 913
Water Tube Boilers, Testing 695
Watt, James, Centenary 771
Welded (Electrically) Steam Lines 111
Welding, Electric, Data of Vessels to which application of, has been considered and approved by American Bureau of Shipping, and Lloyds 800
Welding, Electric, Placed on a Scientific Basis by J. H. Chalker 55
Welding of Steel by the Oxy-Acetylene Process, Difficulties of 331
Williams, R. D., Societies, Associations and Commissions Promulgating Specifications for Engineering Materials 530
Williams, Refrigerating Machine, by Wm. L. DeBaufre 151
Work, Conversion of Energy into Useful, Engines for, by J. O. Fisher, Commander, U. S. N. 139
Workshop Hints, Seven 254
X Rays, Examination of Material by 715
